The authors wish to make the following corrections to their paper [1]:

In Table 3, the rows showing “Intake P”, “Excretion P” and “Digestibility P” have typing errors and are now corrected (see the corrected version of Table 3 below).

Table 3. Daily intake (g), fecal excretion (g), digestibility (%) and retention (g) of phosphorus (P).

Diet/ Forage	A	B	C	D	E	F	Pooled SEM	Statistical Significance (<i>p</i> -Values)				
	Hay	Haylage	Hay	Hay	Hay	Hay		Haylage vs. Others	Hay vs. ConS	Oats vs. Comp	ConL	ConT × ConL
ConL	0	0	O20	O35	C20	C35						
Intake P	20.6	22.1	22.8	24.8	20.9	24.1	0.21	0.036	<0.001	<0.001	<0.001	0.027
Excretion P	20.0	20.2	21.5	22.1	19.9	21.5	0.42	0.125	0.021	0.025	0.033	0.251
Digestibility P	2.7	8.0	5.6	11.1	4.9	10.6	1.98	0.652	0.037	0.761	0.024	0.974
Retention	0.6	1.9	1.0	2.8	0.9	1.9	0.45	0.354	0.075	0.25	0.014	0.379

O = oats; C = complete feed; ConL = concentrate level (20 or 35% of oats O or complete feed C); ConS = concentrate supplementation; ConT = concentrate type (oats/complete feed); Comp = complete feed.
